Inspector's Report

County Road 1-2 Master Meter Pit (1-1/2" Meter Replacement)

Tom reported that the small meter at the 1-2 meter pit was making a loud clunking noise, but it is still reading. Tina spoke with Badger and they think it could be the magnet, she ordered a new meter and Tom will be installing it. Trustee Albert asked Tom if he intends on tearing the old meter apart to find out what component failed, Tom stated he wasn't sure.

Tina said the master meters are scheduled to be tested and calibrated by the end of May and wanted to know if Tom wanted to make sure it was done after he installs the new meter and he said yes. The Road 1-2 master meters were not able to be tested and calibrated last year, due to the fact that the valves were unable to be opened.

Tom spoke with the owner of the Trailer Park and he told Tom, they found 2 trailers that had left their water running after they left the park. Tom has noticed when he has done his testing, the meter isn't spinning as fast.

New Taps are going to be installed next week at 1903 CR EF & 4455 S. Fulton-Lucas.
